Coco D'Este

Coco d'Este was born and raised in the San Fernando Valley. In spite of living in Toronto, Canada for five years, she has always considered the Valley her home. Coco was catapulted into the public spotlight when she embarked on her relationship with actor David Carradine. During their six-year marriage, she continued to keep her acting career alive while managing his. Coco was acknowledged publicly and within the entertainment industry as being the sole force behind Carradine's career resurgence.

After their divorce, Coco moved to Studio City and has been busy writing two books (with publishing deals), producing several projects for film and TV and grooming her collie, Lulu for her time in the spotlight. Lulu is the direct descendent of LASSIE (IX to be exact). A Ralph Lauren model, Lulu is fast accumulating TV credits of her own.

Coco has also designed The Flying Goddess jewelry that was featured in an interview about her career for the *E! Entertainment Special: E! Hollywood Wives Tales* currently in syndication. The launch for her jewelry took place November 19 at LTH Studio, here in Studio City.

Coco is also managing again. "I wish I had a 'me' to help me with my career when I was young... So I'm taking on a very talented actress - Candice Cooper. She's got 'it'. I love living in Studio City. I meet a lot of people and run into friends I grew up with like Ed Begley Jr. It's a little like Yorkville in Toronto... only better!"

Security is Freedom

Mulholland Lock, Key & Security Services

Q. Can we buy any security gifts from you for the holidays?

A. Yes. We have security gifts! In recent years we have had people coming mostly to purchase safes for their family. A safe is an important item and can range from \$129 for a small nice hotel electronic safe to a few hundred dollars for larger burglary safes. Come to our showroom and see for yourself, you may be surprised. They really make nice gifts.

We also can provide you with many different types of items to secure the home that can be used as gifts for family and friends including dummy cameras, locks, Bick locks, book safes and a few more ideas.

Please visit our showroom and check us out.

Locks, Safes, Gates, Intercom Systems, Close Circuit TV, and more.

Call or visit our showroom for all your security needs.

KELLY'S TRAINING professional dog training

DOGGIE DAYCARE & BOARDING

5224 Vineland Ave.

North Hollywood

818-985-4800

Q: What should I know before boarding my dog?

A: The holiday season is upon us and it's time to make boarding plans for your beloved pup. We are currently scheduling evaluations for the holidays. The last day for evaluations is 12/16/05, so please schedule your evaluation early. Trusting your boarding facility is as vital to your own vacation enjoyment as your dog's, so you should thoroughly investigate your options. At Kelly's, all boarding dogs are integrated into the regular daycare which includes basic manners training, so an evaluation appointment is required prior to your dog's stay. The dogs sleep indoors in our well-ventilated, temperature controlled building and play both inside and out all day. All vaccinations are required to be up to date at least a week prior to their first visit. If your dog has never been boarded before, you might consider a short, overnight stay or a day of daycare prior to an extended boarding stay to help your dog understand that you will return, and that a day away from home can be fun! Pets, like people, usually appreciate a vacation in new surroundings with new friends. Once they become familiar with their new surroundings, they have a great time just like kids at summer camp.
